

Schools for Change Yellow Brick House Public Education Workshops For High School Students

Yellow Brick House's Public Education program has gone virtual!

Exploring Relationships

A preliminary overview of what is healthy and what is not in relationships. We discuss the definition and types of violence, power and control, risk factors and examine real life examples of unhealthy relationships. Students will also learn effective ways to assert their boundaries acknowledge their own behavior and understand how these pieces impact their decisions.

Cyber World and Your Relationships

Why is Cyber-abuse so prevalent and what makes it different from other types of abuse? Students will gain a better understanding of what cyber abuse is, why it is becoming normalized in our society and how we can help stop it.

Genders in Media

Media is everywhere and it plays a large role in creating gender norms. We take an in-depth look at how the media affects our sense of self, our relationships and the way we treat others. We aim to engage youth in exploring different perspectives and challenge them to be critical in their response and interpretation of everyday media. Real life stories and media discussed will change to fit the current news and media popularity.

Please note:

Price for each presentation, is \$100 , however for the remainder of the school year, costs are **waived for any virtual requests.**
