

Yellow Brick House is an organization dedicated to empowering women and their families by providing direct assistance to them as they rebuild their lives after an experience of violence. We also raise public awareness of abuse and violence within our communities through our Public Education programs.

Healthy Homes was previously funded by Ministry of Citizenship and Immigration. We were fortunate to be able to develop and offer workshops and other events about abuse developed specifically for newcomers and immigrants to Canada.

Healthy Homes is a public education program which aims to provide culturally sensitive and appropriate presentations and workshops to other community organizations with the goal of providing information and engaging the participants on topics that include:

- **Healthy vs. unhealthy relationships**
- **What is abuse?**
- **How to identify abuse/ What are the warning signs?**
- **How to get help and support / What to do if you suspect you or someone you know is being abused**
- **What the benefits are of cultural diversity for social, economic, and civic life**
- **The importance of safety in our community**
- **Providing relevant community resources**

Yellow Brick House will be offering our Healthy Homes workshops and presentations to organizations and community groups who provide services to newcomers and immigrants to Canada.

If you would like to talk further with us about this opportunity, please contact our Public Education department at:
