About Yellow Brick House

Since its inception, Yellow Brick House has served 151,000 women and children to reclaim their lives. In the past year alone, we supported women and children, offering counselling and court assistance to over 800 individuals while providing refuge to over 156 women and children in our emergency shelters.

Yellow Brick House stands as a vital lifeline, offering essential services and preventive programs tailored to the unique needs of those affected by violence, be they individuals, families, or entire communities.

Gender-based and intimate partner violence remain pervasive in Canada, with the urgent need for our services underscored by the tragic loss of one woman or child to domestic violence every two days.

Operating two emergency shelters in York Region, we also provide counselling, as well as resources and tools to help women and children rebuild their lives free from violence and abuse. Together, we stand as a force for transformation and healing.
